Polled Congress Sets New Record Average

The 1973 National Polled Shorthorn Congress held April 1-2, Kansas City, Mo., set a new record average of \$1,095. This reflected the excellent growth in polled popularity in the U.S.

Bulls averaged \$216 more than in 1971 making a \$1,196 average. Females averaged \$892 which was \$127 higher than the previous year.

Polled of Course

Both the champion and reserve champion females at the 1973 National Western Junior Shorthorn Heifer Show were Polled Shorthorns.

The champion was Chuck-O-Luck's Mayflower x by Kinnaber Mr. Thieman x that later topped the Denver Shorthorn Sale at \$1,825.

The reserve champion was Elms Villa Sally 4th x by TPS Coronet Leader 21st x.

Polled Shorthorns Top All Breeds In Gains

A Polled Shorthorn bull consigned by Frosty Acres Ranch, Adin, Calif., was the top gaining bull over all breeds, including dairy and European crossbreds, at the RSI Bull Test, Klamath Falls, Ore. The bull gained 4.69 lbs. per day on the 112-day test.

A pen of five bulls consigned by Frosty Acres had the impressive average daily gain of 4.04 lbs. per day per bull, the highest for any beef breed.

In the RSI Bull Test Sale, a Frosty Acres bull was the top-selling bull over all breeds at \$2,600.

Polleds Top U.S. Auction Sales

Average prices paid for Shorthorns and Polled Shorthorns in 1972 reached a 21-year high of \$552 per head.

Polled Shorthorns had these noteworthy sale achievements:

Top-selling bull of the breed at	\$4,400
Second top-selling bull	3,500
Third top-selling bull	3,475

Top-selling female of the breed at	\$3,200
Second top-selling female	3,000

Seven of the ten top averaging sales in the U.S. were basically Polled Shorthorn.

The top dispersion of the breed was Polled Shorthorn.

The top production sale of the breed was basically Polled Shorthorn and averaged \$1,017.

Polleds Dominate Large National Show

Polled Shorthorns exhibited their claim to quality at the National Shorthorn-Polled Shorthorn Show, Springfield, Ill., August 12th, 1972. In the largest show ever staged by our breed and perhaps the largest beef show ever held in the U.S. (456 head exhibited), Polled Shorthorns dominated.

Polled entries won all the grand and reserve grand championships in the bull and female divisions. In fact, they won 13 of the 16 possible championships.

In addition, the first six senior gets of sire and 18 of the top 20 were sired by polled bulls. The polled domination was even more apparent in the junior get of sire classes where the first 12 were by polled bulls as well as 18 of the top 20 gets.

ALABAMA

BIGLAWN FARMS, Rt. No. 2, Toney, Alabama 35773. Located 16 miles North of Huntsville, Alabama on Pulaski Pike. We have 60 brood cows. Herd Sires: Thomas Durham 26B and Stonestead 65th.

BACK TO THE THIEMAN HERD**

That's because we've consistently
used bulls that are potent and
females that produce BEEF,
QUALITY AND DOING ABILITY.

Today Featuring

**TPS Coronet
Catalyst 20th x**

**TPS Coronet
Keystone 14th x**

A SON OF THESE BULLS can help
your breeding program. All the
Thiemans invite you to come and see
a great herd bull battery in service.

ACADIA DUTCH 7th x—Our choice of all the
top bulls at the 1973 Congress Sale. A truly
promising son of the many times Champion,
Stone Oak Leader—out of a THIEMAN-
BRED cow by TPS Coronet Unlimited 3d x.

“DUTCH” recently was grand
champion at Illinois and Missouri in
the keenest competition these shows
have seen in recent years.

DUTCH x

Dutch x (Stone Oak Leader x), International Supreme Champion, the most popular show bull of modern times, is also among the most prepotent sires of all times. Why not have your own crop of Dutch x calves? His semen is available at \$25 a vial, in minimum orders of eight. For details, write Acadia Farms, P. O. Box 6419, Cleveland, Ohio 44101. Join the satisfied customers who say: "Our Dutch x calves surpass all expectations. Please send 10 more vials of semen as soon as possible." "Thanks for your fast service in handling the Dutch x semen, the fastest I have ever got in four years of using A.I."

CHALLENGING THE FUTURE with "INDUSTRY LEADING SIREs"

CHAMPAGNE (Mel-bros Stronghold) is the newest of Acadia's industry-leading stock bulls. He's one more good reason for an early visit. Make a date in advance, to be sure of a tour of the entire herd.

FILLET

Fillet (Weston Trade Mark 3rd), twice "Sire of the Year," is THE big bull that stopped the shows in all breeds whenever he walked into the ring. His calves are following in their father's footsteps. A good selection is on offer at Acadia. Come take your pick.

Byland

Byland is line breeding for size and muscularity and selecting for these traits . . . Our quality stays in as size increases . . . STOP BY . . . see some of the biggest, most modern cattle anywhere.

SEVEN T's LEADER CORONET x. Champion and top-selling bull, 1972 Polled Shorthorn Congress. Consigned by Seven T's Polled Shorthorns, Yukon, Okla. He is by Kinnaber Leader 22nd x and is a white, September yearling and a line-bred TPS Coronet Leader 21st x, first "Sire of the Year." He has the cleanness and muscling the judges like today. He is coming on to be quite a bull.

HERD SEVERAL YEARS ON OHIO PRODUCTION TEST. FEDERALLY CERTIFIED AND ACCREDITED.

BYLAND GAMBIT x. He was first junior bull calf at the 1970 Ohio State Fair and reserve calf champion. He weighed 485 pounds at 157 days and had a type score of 16. He is a most intensely bred son of Byland Lineman x. His dam is Byland Lavender L H x. She is by a full brother to Lineman x and out of a full sister to Lineman x. Lineman's sire and dam are three-quarter brother and sister. He will be used with some of the new, line-bred horned females from Scotsdale and with some of his closest female relatives.

72% of Champions Are Polled Shorthorns

A study of 35, picked-at-random, shows reveals that 72 percent of all champions selected in Shorthorn shows are Polled. Seventy-five percent of all grand champions and reserve grand champions are also Polled.

Out of a possible 520 championships in the shows studied, 374 were Polled Shorthorns. Eight-six percent of all senior gets of sires were won by Polled progeny as were 91 percent of all junior gets.

The Polled advantage is actually even more outstanding than these figures would indicate as there were a good many other Shorthorn champions that were sired by Polled bulls.

It is obvious that the road to quality is the Polled Shorthorn road.

Win Feeder Championship

A pen of steers sired by Kinnaber Leader 4th x, won the Shorthorn feeder pen championship at the 1973 Arizona National Livestock Show, Phoenix, for Barkhurst Shorthorns, Saratoga, Wyo.

The calves averaged 548 lbs. and sold for 85 cents a pound.

Polled Shorthorns Are America's Fastest Growing Established Breed

Polled Shorthorns zoomed to the forefront in growth statistics in 1972. Their registration total of 18,060 head was a whopping 25½ percent increase over the preceding year . . . clearly marking the breed as the fastest growing of the established beef breeds in the U.S.

Last year, for the first time in history, the polled branch of the Shorthorn breed surpassed the horn branch in registrations.

Polled Shorthorn registrations since 1963 and their percentage of total A.S.A. recordings are:

Year	Registrations	Percent of Total
1963	10,426	27 %
1964	11,243	28
1965	10,613	28
1966	10,934	28
1967	11,068	28
1968	12,727	29
1969	10,241	30
1970	12,261	34
1971	14,406	44
1972	18,060	52

One of the great selling points in the Shorthorn breed is the close polled-horned relationship. Breeders can broaden their sales base by raising both, if they so desire, without the increased cost of separate memberships or duo registrations. The Polled Shorthorn industry is proud of its encouraging growth. **HELP US CONTINUE THIS TREND WITH YOUR REGISTRATIONS.**

Polled Shorthorns Top Midland Gain Test

Polled Shorthorns won "gain" honors at the Midland Beef Performance Test Center, Billings, Mont., in 1973.

A Polled Shorthorn bull consigned by Arch & Peg Allen, Livingston, averaged 3.88 lbs. of gain per day, the highest daily gain for the 140-day test of all IPR bulls of all breeds. This bull later went on to sell for \$4,000. The five Polled Shorthorn bulls sold averaged \$1,720.

The table below shows average daily gains and 365-day weights by breeds.

Breed	Average Daily Gain	365-day Wt.
Polled Shorthorn	3.14 lbs.	1,011 lbs.
Charolais	2.96 lbs.	1,071
Hereford	2.93 lbs.	992
Angus	2.91 lbs.	973
Galloway	2.77 lbs.	901
Santa Gertrudis	2.60 lbs.	877

Tops 1972 Century Club Listings

The Polled Shorthorn firm of J. E. Albaugh & Sons, Frosty Acres, Adin, Calif., topped the American Shorthorn Association's Century Club listing for 1972.

The Century Club is reserved for those who record 100 head or more during the A.S.A.'s fiscal year.

Frosty Acres recorded 283 head. R. Magill, Verona, N.D., ranked third with 195 Polled Shorthorn registrations.

Other polled firms on the list included The Kaehler Family, St. Charles, Minn. 136 head; Evert C. Hunsicker, Eagleville, Mo., 126 head; Martin Nold, Gettysburg, S.D., 124 head; Frank J. Haumont, Broken Bow, Nebr., 111 head; Hart Farm, Waxahachie, Texas, 104 head; Wertz Bros., Bancroft, S.D., 101 head; Bob & Lee Farms, Fredericktown, Ohio, 101 head.
